

2024 U.S. Political Engagement Policy and Statement

1 This U.S. Political Engagement Policy and Statement describes the two types of political
2 engagement by the Company. The first is lobbying, which includes both direct
3 communications with government officials by the Company as well as advocacy by other
4 organizations (i.e., indirect lobbying) that receive financial support from the Company. The
5 second is campaign contributions to candidates for elected office, political parties, political
6 committees, and other organizations that use the contributions for campaign-related
7 purposes.

8 The Company's policy is to participate in public policymaking by informing government
9 officials about our positions on issues significant to the Company and our customers. The
10 Company conducts this lobbying in the context of existing and proposed laws, legislation,
11 regulations, and policy initiatives, and includes commerce, intellectual property, trade, data
12 privacy, transportation, web services, sustainability, and other areas. Relatedly, the
13 Company constructively and responsibly participates in the U.S. electoral process by making
14 campaign contributions. The goal of the Company's political engagement is to promote the
15 interests of the Company and our customers, and the Company makes such decisions in
16 accordance with the processes described in this U.S. Political Engagement Policy and
17 Statement, without regard to the personal political preferences of the Company's directors,
18 officers, or employees. Click here for [archives of previous statements](#).

19 Review and Approval Process

20 The Company's Vice President of Public Policy reviews and approves each campaign
21 contribution made with Company funds or resources to, or in support of, any candidate,
22 political campaign, political party, political committee, or public official in any country, or to
23 any other organization for campaign-related purposes, to ensure that it is lawful and
24 consistent with the Company's business objectives and public policy priorities. The
25 Company's Chief Global Affairs & Legal Officer, who oversees our global public policy
26 organizations, and the Audit Committee of the Board of Directors annually review this U.S.
27 Political Engagement Policy and Statement, related procedures, and a report on all of the
28 Company's campaign contributions and lobbying expenses, including donations made to
29 other organizations that may engage in indirect lobbying on behalf of the Company.

30 2024 Political Engagement

31 In 2024, the Company complied with all applicable regulations requiring public disclosure of
32 corporate political activity.

33 *Campaign Contributions*

34 In 2024, the Company did not make federal contributions to political parties or 527
35 organizations, or in support or opposition of any campaigns, and did not make any federal
36 or state independent expenditures for campaign-related purposes. In 2024, the Company
37 made non-federal contributions to candidates, political committees, 527 organizations, and
38 ballot initiatives in the amounts disclosed in Annex A to this U.S. Political Engagement Policy
39 and Statement.

40 *Amazon Political Action Committee*

41 The Company has formed a political action committee (PAC) funded solely by voluntary
42 contributions from some of the Company's eligible employees and shareholders (and their
43 spouses). The PAC's activities are subject to federal regulation, including detailed public
44 disclosure requirements. The PAC files regular public reports with the Federal Election
45 Commission (FEC), and campaign contributions to and by the PAC are required to be
46 disclosed. These reports are publicly available on the FEC website at
47 <https://www.fec.gov/data/committee/C00360354/>.

48 *U.S. Lobbying Activities*

49 In 2024, the Company spent approximately \$17.87 million on federal lobbying activities,
50 which are reported to the House and Senate:
51 http://www.senate.gov/legislative/Public_Disclosure/LDA_reports.htm.

52 In 2024, our spending related to the Company's government relations efforts in all states
53 (non-federal) and Washington, D.C., was approximately \$9.89 million. Specific amounts
54 spent per jurisdiction are included in Annex A to this U.S. Political Engagement and Policy
55 Statement, as disclosed on applicable state and local websites, such as those maintained by
56 secretaries of state, state ethics and public disclosure commissions, state legislatures, and
57 other state and local authorities.

58 *Trade Associations, 501(c)(4) Social Welfare, and Other Organizations*

59 The Company contributes to certain trade associations, coalitions, charities, and 501(c)(4)
60 social welfare organizations, many of which engage in indirect lobbying on behalf of the
61 Company by communicating with policymakers on issues important to their members. All
62 organizations receiving such payments of \$10,000 or more made through the Company's
63 Public Policy Office in 2024 are disclosed in Annex A to this U.S. Political Engagement Policy
64 and Statement. The Company may not agree with all the positions of each organization, its
65 leaders, or its other supporters, but believes that the Company's support will help advance
66 policy objectives aligned with our interests.
